

BOX

We have sourced some exceptional organic box wines. Some people may assume cheaper wine would be packaged this way, the reality is it enables us to offer premium organic wines at accessible prices. Most importantly, by using box wine we achieve a massive reduction in waste materials and CO2 output, in line with our sustainable ideology.

NATURAL

Natural wine is made using clean, minimal additive wine-making techniques. The grapes used in production are organic or biodynamic, the fermentation uses natural yeasts and the addition of sulphites are low to negligible. With good growing conditions this produces delicious wine of purity and authenticity.

ORG V

This wine list contains wines from organic fruit and natural wine-making techniques. We actively promote bag-in-box wine for its incredible reduction in waste materials and low carbon emissions – box wine reduces the carbon footprint of up to 80% compared to bottled wine, whilst enabling us to provide premium European wine at lower prices.

We believe that the exceptional wines comes from quality fruit, best achieved through organic and biodynamic farming, and that low additive, clean wine-making is also important, hence why we champion natural wine. We have an ever-changing roster of sustainable specials, so please ask at the bar for this month's options, or any further information about box or natural wine.

*PLEASE NOTE NOT ALL PRODUCERS ARE CERTIFIED IF YOU WOULD LIKE MORE INFORMATION ON THIS PLEASE ASK A MEMBER OF THE TEAM.
